

Instructions (Steps):	Screenshots:
Open Safari.	 The Safari app icon, which is a blue compass with a red needle, set against a white rounded square background with a pink border.
In Safari, tap the tab view button at the top right of the screen.	 The tab view button icon, consisting of two overlapping blue squares.
Once in the tab view, tap the grey "x" at the top of each tab until they have all been closed out.	 A screenshot of the Safari tab view interface. At the top, it shows the time '10:33 AM', the date 'Fri Mar 12', and the battery level '100%'. Below the status bar is a search bar labeled 'Search Tabs' and a 'Private' indicator. Three browser tabs are visible, each titled 'Favorites' and containing icons for Apple, YouTube, Google, and Microsoft. A red circle highlights the grey 'x' close button at the top right of the middle tab.
Open the Settings app.	 The Settings app icon, which is a grey gear with a red circle containing the number '2' in the top right corner, set against a red rounded square background with the word 'Settings' written below it.

Once in the Settings app, scroll down the left side menu until you find the Safari option. Tap Safari.

Then locate the "Clear History and Website Data" button.

Tap the red "Clear" button.

If the above steps fail, please submit a tech ticket and we will fix your issue as soon as possible.
