

Adds Up to 4 In A Row

Materials: Game board, number cards for 4, 5,6,7,8,9 and counters.

Rules: Be the first player to get 4 counters in a row (vertically or horizontally)

- 1) Draw a number card. Cover 2 adjacent numbers on the game board whose sum is the number card. (Numbers MUST be adjacent meaning sharing a side, not diagonal.)
- 2) The second player draws a number card and covers 2 adjacent number on the game board.
- 4) You might need to reshuffle the number cards if you go through the stack.
- 5) If you draw a card and cannot find two adjacent numbers to cover, you lose your turn.
- 6) Play continues until one player has 4 in a row or until no more adjacent numbers are available.

1	3	4	6	1	6
8	2	2	3	2	4
3	3	2	4	4	5
1	4	5	2	3	1
7	5	2	6	1	3
1	3	7	2	5	4
